More About Good Roads

Brockton, R. I., Jan. 30.

Editor Clipper: As you indulged me space to ask a few questions on good roads, and was kind enough to explain the benefits of good roads, please allow me space to comment a little more, as I feel sure there will be an election on the bond issue this year, and I would like to see the question threshed out.

Now as to how long it would take to build good roads. There is Pike County, it has had bonds for a number of years, and has not built up all its roads yet.

Also I don't think \$50,000 will build our roads. And I don't think our bonds would sell a par. The men with money will want a discount and that will cut the money short.

I note in your reply to my statement that there were men enough to keep the road in good fix, that you doubt it. Did you ever go out on a country road to work? I have and I know how it is done, and how it is not done. Nowhere is the work done according to law. The men and the overseer are all friends, and the overseer will not come down on them according to law, for fear he will make some one mad. I have been overseer myself and I did not require the lawful hours of work because it was not the custom with others. We worked about four hour a day and about three or four days per year. But I have worked on the road by time, and we fixed our road in six days. The road was three miles long, and we dug down banks four feet high, and made ditches on each side.

Why cannot our road laws be enforced as well or better than the automobile laws? How many farmers do you think, after he has met an automobile running at break-neck speed, that has frightened his team, could take the number of the car, or go to a phone to head them off? The road laws can be more easily enforced than that.

Nevertheless I am in favor of good roads, but not a bond issue. Could you not get up some other plan? I am in favor of anything that is for the advancement of the county. But why burden the rising generation. Why do you insure your life for the benefit of your children and then burden them with a bond issue?

I will not say more at present, but if I find space will come again T. J. T.

In reply to the above we will say: First it is not expected that roads can be built in the county for \$50,000. That amount would be entirely too little. At least twice that amount would be needed. It is my understanding it is not the intention of our commissioners to attempt the work with less than \$100,000.

As for selling the bonds at par or not at all. The law will not allow any public bonds to be sold at less than par. And further there would be no trouble at all to dispose of the bonds, at their full face value.

We are glad our correspondent mentioned Pike County's good roads. We don't know how long they have been building good roads there, but we do know the people of that county are satisfied, and we doubt if there is a man in the county who would be willing to go back to the old way of working roads. Also that the good roads have greatly increased the value of Pike county farm lands.

We know if the present road laws were enforced we would have better roads, but the laws have never been enforced anywhere, and they never will be, because

there is no money in it for anyone. So it is useless to talk about building good roads with the present road laws. You might as well try to run the county with voluntary contributions instead of taxes.

So far as "some other plan" is concerned, there has never been any plan to build roads without money. And the only way the county can get money is to sell bonds.

Our correspondent is wrong about bonds being a burden on our children. If bonds are not going to be a paying investment it would be better not to have them. If you don't think the roads will be worth the cost, it would be better not to vote for bonds. If you do think the roads are needed, and will be worth their cost, then the bonds will not be a burden, but a good investment, both for you and your children.

Tortured For 15 Years.

By a curd-defying stomach trouble that baffled doctors, and resisted all remedies he tried, John W. Modder, of Maddersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said "he can't live much longer." "Whatever I ate distressed me," he wrote, "till I tried Electric Bitters, which worked wonders for me that I can now eat things I could not take for years. Its surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50c at Harp Drug Co.

Fifth Sunday Meeting.

The Baptist City of the Coffee County Association convened Jan. 29th at New Haven Church, five miles south of Elba.

Services began at 10:15 A. M. with devotional exercises by Rev. C. O. Helms. At 10:30 Hon. J. M. Hickman addressed the children on the subject of Sunday School and Missions. His address was not only instructive to the children but was also helpful to the grown up people.

Rev. D. P. Lee preached the eleven o'clock sermon, having used for his text the ninth verse of the seventh chapter of second Kings. At 12 o'clock the association adjourned one hour for dinner.

At 1:30 P. M., Hon. J. A. Carnley made an excellent talk on the Need of Bible Teaching. Next on the program was an address by Rev. Mr. Blackman, of Enterprise on the subject Why Am I a Baptist?

At 2:30 P. M., Rev. J. H. Gunter preached a very forcible sermon, which closed the services of the day.

At the close of the meeting the following resolution of thanks was adopted: Resolved that the thanks of this congregation be extended to the people of this community for their excellent hospitality.

The following churches were represented: Enterprise, Elba, Shiloh, New Ebenezer, White Water, Damascus, Mt. Gilead and Bethany. R. S. Tillman, Sec'y.

Backache, Rheumatism, Sleeplessness Result from disordered kidneys. Foley Kidney Pills have helped others they will help you. Mrs. J. B. Miller, Syracuse, N. Y., says, "For a long time I suffered with kidney trouble and rheumatism. I had severe backaches and felt all played out. After taking two bottles of Foley Kidney Pills my backache is gone and where I used to lie awake with rheumatic pains I now sleep in comfort. Foley Kidney pills did wonderful things for me. Try them now."

Notice to Teacher.

In compliance with an act approved August 19th, 1909, the State Superintendent has designated, Friday February 17th, 1911, as Temperance Day to be observed in all the public schools of the State in such a manner and with such appropriate exercises as may be determined by the teachers under the direction of the local authorities. Yours very truly C. H. Byrd, County Supt. of Education.

Life Saved at Death's Door.

"I never felt so near my grave," writes W. R. Patterson, of Wellington, Tex., as when a frightful cough and lung trouble pulled me down to 100 pounds, in spite of doctor's treatment for two years. My father, mother and two sisters died of consumption and that I am alive today is due solely to Dr. King's New Discovery, which completely cured me.

Now I weigh 187 pounds and have been well and strong for years. Quick, safe, sure, its the best remedy on earth for coughs, colds, lagrippe, asthma, croup, and all throat and lung troubles. 50c & \$1.00. Trial bottle free. Guaranteed by Harp Drug Co.

BANNER SALVE the most healing salve in the world.

Under New Management.

We call the attention of our readers to the announcement of The Planters Trading Company in this issue. As can be seen from the announcement new officers have been elected by this well known concern, caused by the death of Hon. C. L. Brannen, who was president and manager. Mr. G. E. Lindsey is now president and general manager, Mr. Fox Henderson, vice-president, and Mr. O. A. Ellis, secretary, treasurer and assistant manager. The new officers have been identified with this business for sometime, and are very favorably known to the trade of this section.

Under the new management The Planters Trading Company has ample capital to increase its business to an unlimited extent, and the managers have the experience and business ability to make the concern a success and to take proper care of all old patrons of the company and as many new ones as may need accommodation. It is one of the largest concerns in this section, and in its various departments, has complete stocks of everything salable, including live stock, wagons, hardware, gunn, groceries, dry goods, furniture, etc., etc.

Walker Thomas Acquitted

Tuesday the preliminary hearing of Walker Thomas, charged with the murder of Johnnie Carnley, near Alberton, about two weeks ago, came up before Justice Bryan at Elba. The trial lasted until late Wednesday night, there being some ten or fifteen witnesses on each side to examine.

After hearing all the evidence it was the opinion of Justice Bryan that the killing was accidental and so Mr. Thomas was given his freedom.

REFORMATORY BARRED.

House Passes Bill Restraining District of Columbia.

The house of representatives at Washington voted to restrain the District of Columbia from erecting a reformatory or any other penal institution within a radius of 10 miles of Mount Vernon, the tomb of Washington, either on the Virginia or Maryland side of the Potomac.

The galleries rapidly filled up during the debates, and when the vote to prevent the erection of the reformatory was taken there was an outburst of applause.

The original Carlin amendment, which included Virginia only in the excluded territory, was amended on motion of Mr. Pearre to include Maryland. Patriotic societies throughout the country joined in working for the defeat of the measure.

PANIC AND DEATH SPREAD BY VOLCANO

Many Villages Destroyed--Many Lives Lost.

MOUNT TAAL AGAIN ACTIVE.

It is Reported That the Native Population in All Directions Are Abandoning Their Homes and Fleeing for Their Lives into the Hills.

Scores of persons, all natives, lost their lives in the tidal wave which followed the eruptions of the volcano Taal, according to press advices received at Manila.

An American school teacher who traversed the west shore of Lake Taal telegraphs that five small villages were destroyed by the tidal wave and that not less than 300 persons have been killed in that vicinity. Many were burned in fires.

A constabulary relief detachment reports 12 persons were drowned and one killed by lightning at Talasay, and that three persons were drowned at Lazery. The government is hurrying relief trains to the scene.

All the towns within a radius of 30 miles have suffered damages from the rain of mud and stones, which still continues. The native population in all directions are abandoning their villages and fleeing to the hills to terror.

ECUADOR IS MAD WITH UNCLE SAM

Serious Demonstrations Have Been Made.

ANTI-AMERICAN RIOTS.

Opposition to Proposed Lease of Galapagos Islands Has Resulted in Anti-American Riots--Troops Used to Repress the Mob.

The opposition of the people to the proposed lease of the Galapagos Islands to the United States has resulted in the most serious demonstrations of ill feeling against everything American seen in Guayaquil, Ecuador, in many years. The disorders, which began Friday, were continued all through Saturday and an immense crowd, numbering not less than 10,000 persons, headed by Ignacio Robles, marched to the government palace for the purpose of protesting to President Alfaro.

Troops with loaded rifles prevented the crowds from approaching, and only Robles was received by the president as the people's delegate. He informed President Alfaro that Ecuadoreans were opposed to any negotiations with the United States on the subject of the Galapagos Islands. After a lengthy interview the president said that in view of the manifest opposition, the government would decide in its proposal to negotiate the lease.

Notwithstanding this promise the crowds still remained in the streets, parading in many of the thoroughfares. Mounted troops have been distributed in all parts of the city for the purpose of maintaining order. Detachments of armed guards are also surrounding the palace.

NEUTRALITY VIOLATED.

Troops Sent by U. S. to Guard Mexican Border.

Determined that the territory of the United States shall not be used as a base of revolutionary expeditions against Mexico, the Washington government has taken steps to increase materially the American military and customs forces guarding the frontier.

The secretary of war issued orders more than doubling the soldiers guarding the border line, and the secretary of the treasury authorized the collector of customs at El Paso, Texas, to appoint ten additional deputy collectors of customs in order to establish a more effective survey of smugglers. It is understood that these orders were issued by direction of the president upon representations from the Mexican embassy that the neutrality of the United States was being violated. Secretary Dickinson decreed that the military patrol of the border be increased by six troops of cavalry from Fort Sam Houston, Texas, detachments of mounted infantry from Fort Whipple, Ariz., and Wingo, N. M. The army officers have been instructed to cooperate with the marshals of the department of justice and the customs officials of the treasury department stationed along the border.

FOR TARIFF BOARD.

First of Legislation Favored by Taft Passes House.

After considering the matter for more than seven hours under a special rule the house of representatives by a vote of 186 to 93 passed the bill providing for a permanent tariff board of five members. This is the first of the legislation recommended by President Taft to be adopted in the house this session.

The democrats split on the passage of the bill, and although Champ Clark, the minority leader, voted for the measure, ninety of his followers were recorded against it. The others who voted in the negative were scattering republicans. The democrats voted to gather on various amendments to the bill, but in each instance they were defeated and the bill was put through in exactly the shape it had come from the committee. The insurgent republicans voted with the regulars of their party in opposition to the democratic amendments and on the final passage of the bill.

One woman was killed and a score of girls were hurt at Philadelphia as the result of an explosion of an ammonia tank in a laundry. The victim of the explosion was Jennie Hall, an elderly employee. She was blown through a window of the first floor into the street. Twenty or more girls were slightly injured in their rush to escape with 250 other panic-stricken employees.

Mrs. W. H. Folton, of Cartersville, has won out in her contest with the Louisville and Nashville Railroad Company, in her effort to have that road replace a spur track from Cartersville out to some mining property which she owns.

An Announcement.

On account of the recent death of our President and General Manager it became necessary for us to elect new officers for the conduct of our business, and in stock-holders' meeting recently held, vacancies in the Board of Directors were filled by electing Mr. Fox Henderson and Mrs. S. E. Brannen directors to fill said vacancies. Both Mr. Henderson and Mrs. Brannen are too well and favorably known to require a formal introduction here.

In directors meeting the following named gentlemen were elected as officers and for the management of the business of this corporation for the ensuing year: G. E. Lindsey, President and General Manager; Fox Henderson, Vice-Pres. and O. A. Ellis, Sec.-Treas'y, and assistant General Manager.

We are well equipped for a large cash and credit business and in this connection we take pleasure in inviting all our friends to come to see us as we are in position to take care of all.

We carry the largest stock of general merchandise in this section: Such as Dry goods, Notions, Shoes, Hats, Furniture, Coffins and Caskets, Groceries, Hardware, Live Stock, Buggies and Wagons well known to the trade as the Summers, Franklin, and White Star Buggies and the Celebrated Studebaker Wagon.

We handle several well known brands of Fertilizers among which are The Elba Fertilizer Works Goods; Standard Chemical & Oil Co. goods and F. S. Royster's Farmers Bone and Fish Guano. Our prices are low down. So come to see us. We can and will save you money.

DROP IN DEPOSITS.

Decrease of \$151,000,000 in National Banks of Country.

Deposits of individuals in the 2,200 national banks of the United States decreased \$151,000,000 between November 10 and January 7—a situation probably unprecedented in the reports made to the controller of the currency.

Of that sum, more than \$151,000,000 was withdrawn from the Elba City National Bank of New York city. No two officials of the treasury agree as to why the money was withdrawn, but the opinion that part of it might have gone to the New York state banks and trust companies during the busy season for the so-called "hot" money is held by the majority.

All of the treasury officials, however, agree that the money was withdrawn from the New York banks.

JURY DISAGREES
IN SCHENCK CASE
Eleven Men Wanted to Acquit Defendant.
ONE FOR CONVICTION.

But Twelve Men Thought Woman Guilty and Stopped Acquittal—Woman's Attorney Will Seek to Have Her Released From Jail.

After struggling for more than twenty-four hours with a mass of technical and sensational testimony, the jury in the case of Mrs. Laura Farnsworth Schenck, charged with poisoning her husband, John O. Schenck, announced at Wheeling, W. Va., they were hopelessly divided and could not reach a verdict. Judge L. S. Jordan implored them to further efforts, but finally discharged them from the case. Mrs. Schenck is again in jail, despite her hopes that she would be a free woman upon the verdict of the jury.

The final vote taken by the jury after the long session stood eleven for acquittal and one for conviction. On the first ballot, taken within five minutes after the jury retired, eight voted for acquittal, three for conviction and one jurymen refused to vote.

On the second ballot there were nine votes for acquittal and three for conviction. Eight of the status the verdict of these twelve by an appeal verdict was gradually worked up to eleven.

"The one jurymen who prevented a verdict was Isaac Hornum, a salesman for a local provision company. From the start he held that the accused was guilty of the crime with which she was charged, and it was finally recognized that there was absolutely no chance for a verdict. While a new trial will be necessary, it is generally conceded that the task of selecting a jury will be most difficult."

Order of Publication.

The State of Alabama, in Chancery, at Coffee County, Elba, Alabama, Eleventh District, South-Eastern Chancery Division.

M. E. Carley, complainant, vs W. A. Carley, defendant.

In this cause it is made to appear to the Register, by the affidavit of M. E. Carley, complainant in the above stated cause, that the Defendant W. A.
